## Biography

### **Baden R. de Bari**

President, Nascor Technologies

Since its inception in 2003, Nascor Technologies has found success driven by the talent and vision of the company's founder, Baden R. de Bari.

Baden brings to the table a unique set of skills and experience earned at companies such as IBM and Nortel. This experience has given him a broad foundation in a variety of unique environments and applications. As well, he has worked for clients of all backgrounds and sizes in the private sector.

Not all of Baden's recognition has been at home – he has been internationally recognized for his work in the fields of computer science, and engineering. Notable accolades include three third-place placements in national competitions for engineering and computer science, two IBM Computing and Technology awards, and selection as one of only six Canadians to attend and lecture at the prestigious London International Youth Science Forum in London, England. Most recently, Baden has been quoted in the 2005 HP World global invitation, asked to present at the 2005 e-Financial World Expo, and at the upcoming Wireless & Mobile World Expo, to be held in Toronto, Ontario in summer 2006.
